

FOR ESTABLISHED FREELANCERS & SOLOPRENEURS

From freelancer to **business owner.**

A 6-week program that turns the chaos of self-employment into clear systems, predictable income, and a path to \$10,000+/month.

\$10K+

MONTHLY TARGET

You're busy. So why doesn't it feel like a business?

Most freelancers are skilled at the work — and stuck running it. Effort isn't the problem. The missing piece is structure.

Unpredictable income

Great months and dry months — with no system that makes revenue repeatable.

Always firefighting

Every task feels like starting from scratch. Notebooks, screenshots, scattered notes.

Quiet burnout

Working more hours to stay still. The hustle has a ceiling, and you've hit it.

Competing on price

Selling hours instead of outcomes — so clients only ever compare your rate.

Freelancing isn't a backup plan anymore.

It's a low-cost, fast-growing form of entrepreneurship — increasingly backed by governments and global demand. The market is ready. The question is whether your business is built to capture it.

35%+

of professionals in the US & Europe now

freelance & solopreneur licenses are
surging across the UAE

NEW: The UAE now grants a 10-year Golden Visa to freelancers

Holding a valid freelance permit can put 10-year residency within reach. *For UAE-based members, a steady \$10,000+/month comfortably clears the AED 360,000 income threshold.*

From self-employed to business owner

THE FREELANCER

Work → get paid → repeat

- ✗ Trades hours for money
- ✗ Relies on memory, not method
- ✗ Income swings month to month
- ✗ Says yes to everyone
- ✗ Stops when you stop

THE BUSINESS OWNER

System → value → steady flow

- ✓ Sells outcomes, not hours
- ✓ Runs on repeatable systems
- ✓ Predictable, planned revenue
- ✓ Chooses the right clients
- ✓ Runs even when you don't

Your 6-week journey to flow

Each week builds on the last — from clear-eyed awareness to a complete, money-generating engine.

WEEK 01

Reality Check & Growth Mindset

See exactly where your business stands today — finances, clients, energy, systems.

WEEK 02

Entrepreneur Mindset & Identity

Shift from 'self-employed' to owner. Rewire the beliefs that cap your growth.

WEEK 03

Scale with Systems

Build the first systems that work even when you're not in the room.

WEEK 04

Profitability & Cash Flow

Make money a plan, not luck — costs, pricing and predictable cash flow.

WEEK 05

Market Authority & High-Ticket

Become the in-demand expert who attracts premium clients instead of chasing them.

WEEK 06

The \$10K System

Connect every piece into one engine engineered for steady \$10,000+ months.

Practical, not theoretical

Every session is built on your real business. You leave each week with something you can apply immediately.

Live group coaching

Six guided sessions in a safe, structured space — no judgement, no comparison.

Workbooks & exercises

A workbook every week with hands-on tools you fill in with your own business.

Weekly action steps

One small, real commitment each week that compounds into momentum.

Reflection & progress

Clear before-and-after tracking so you see exactly what's changing.

A supportive community

Peers who share wins and lessons — accountability that keeps you moving.

A complete system

By week six, one connected engine designed for predictable income.

Built for freelancers ready to level up

THIS IS FOR YOU IF...

- ✓ You already have clients or projects
- ✓ Your income feels unstable or unpredictable
- ✓ You're working long hours and nearing burnout
- ✓ You want a system, not more 'hustle'
- ✓ You're ready to charge for outcomes, not hours

PROBABLY NOT YET IF...

- ✗ You haven't started freelancing at all
- ✗ You're looking for a quick get-rich shortcut
- ✗ You don't want to do weekly hands-on work
- ✗ You're happy keeping things exactly as they are

A curated room of five. Each cohort is limited to 5 participants, selected by application — so everyone in the room meets a high standard, and you grow alongside peers who are as committed as you are.

*The market doesn't pay for effort.
It pays for the **solution**.*

This is the shift that changes your income. Stop selling hours and effort — start packaging the outcome your client actually wants. That's how a freelancer becomes a business that can charge premium, and reach \$10,000+ months.

Here we don't work with right or wrong. We work with truth, awareness, and growth.

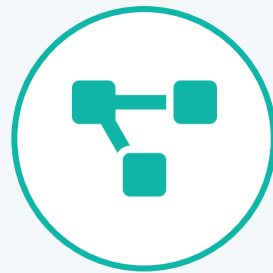

Corporate strategy, **built for freelancers**

Built by a CFO and COO who left the corporate world to freelance — so we ran finance and operations inside companies, then walked the exact path you're on now. **We translated the strategies that scale businesses into a system a solo professional can actually use.**

A CFO's view of your money

Pricing, margins and cash flow handled the way a finance chief runs a company — so profit is designed, not hoped for.

A COO's view of your systems

The operating systems that let real businesses run without the founder — rebuilt at solo scale.

Strategy that usually costs a boardroom

The same frameworks behind company growth plans, made practical for a freelance business.

***We've been where you are.** Now you get the same financial and operational thinking that runs companies — from people who chose this life too.*

Invest six weeks in the way you work

A new cohort starts every month — but each is capped at 5 selected participants, and early-bird pricing closes once a cohort opens.
